Int. J. Gynecol. Obstet., 1988, 26: 485—490
International Federation of Gynecology & Obstetrics

Subject Index

Volume 26

abortion, maternal mortality, less developed countries, vital data, contraception, demographic methods, 177
abortion deaths in Benin City, Nigeria, preventable factors, family planning, need for revision of restrictive abortion laws in Africa, 435
acute glomerulonephritis, renal biopsy, pregnancy, antistreptolysin O, 141
adenocarcinoma, mesonephric, cervix, hypernephroid tumor, mesonephric duct, 137
adnexal tumors, echography, cystic tumors, 109
African maternal care, maternal mortality, safe motherhood, obstetrical services, Senegal, problem identification, policy initiative, 181
analgesia, indometacin, pain, episiotomy, 57
analgesics, labor pain, maternal blood gases, fetal blood gases, 75
anemia, hematocrits, ferritin, levonorgestrel IUD, copper T-380 Ag, Lippes loop, 429
anemia, Imferon, pregnancy, hematologic response, tolerance, 235
antenatal screening, small-for-gestational age, fundal height, growth retardation, measurement, 81
antistreptolysin O, acute glomerulonephritis, renal biopsy, pregnancy, 141
argon dye laser, photoradiation, cytocidal effects, hematoporphyrin derivative, gynecologic tumor cells in vitro, 151
aspiration, endometrium, biopsy, 89

benign cystic teratoma, clinico-pathologic evaluation, ovarian neoplasms, bilateral, serous and mucinous cyst adenoma, malignant change, 413
best age-group, primigravida, pregnancy and labor complications, fetal outcome, elderly primigravida in Nigeria, 51
bilateral, clinico-pathologic evaluation, ovarian neoplasms, benign cystic teratoma, serous and mucinous cyst adenoma, malignant change, 413
biopsy, endometrium, aspiration, 89
birth-related injuries, pregnancy, shoulder dystocia, management, macrosomia, Zavenelli maneuver, 65
birthweight, maternal age, gravida, parity, intrauterine growth retardation, maternal nutrition, 11
birth trauma, perinatal deaths, prematurity, congenital malformations, maternal diseases, intrapartum fetal monitoring, 399

carcinoma of the cervix, early marriage and pregnancy, multiple marriages, parity, contraception, delayed presentation, 265
causes, maternal mortality, risk factors, Indonesia, Egypt, measurement, 21
cesarean section, twin pregnancy, maternal and perinatal outcome, 393
cervical cerclage, cervical incompetence, cervical suture, McDonald's technique, Shirodkar's technique, morbidity of cervical cerclage, 245
cervical incompetence, cervical cerclage, cervical suture, McDonald's technique, Shirodkar's technique, morbidity of cervical cerclage, 245
cervical suture, cervical incompetence, cervical cerclage, McDonald's technique, Shirodkar's technique, morbidity of cervical cerclage, 245
cervix, mesonephric, adenocarcinoma, hypernephroid tumor, mesonephric duct, 137
cesarean section, fetal heart rate monitoring, intra-operative, fetal assessment, myometrial incision, 203
cesarean section, maternity care monitoring, maternal mortality, perinatal mortality, levels of health care delivery, hospital fees, 367
cesarean section, rupture of the uterus, necrosis of the frontal lower segment, ultrasound monitoring, preterm birth, high risk pregnancy, 279
chlamydial serology, infertility, salpingitis, sexually transmitted diseases, 423
clinico-pathologic evaluation, ovarian neoplasms, benign cystic teratoma, bilateral, serous and mucinous cyst adenoma, malignant change, 413
clomiphene citrate, follicular development, dominant follicle, ultrasound follicular measurement, selection phase, maturation phase, FSH-LH-E_2 plasma values, 271
Cloquet node, squamous carcinoma, radical vulvectomy, lymphadenectomy, grade of tumor, stromal invasion, 105
complement, pregnancy, pre-eclampsia, undernutrition, 389
complications, hemoglobinopathies, sickle cell anemia, pregnancy, standard management, improved maternal and fetal prognosis, 229
congenital malformations, perinatal deaths, prematurity, birth trauma, maternal diseases, intrapartum fetal monitoring, 399
conjoined twins, twins, triplets, operative deliveries, stillbirths, early neonatal deaths, 41
contraception, carcinoma of the cervix, early marriage and pregnancy, multiple marriages, parity, delayed presentation, 265
contraception, maternal mortality, less developed countries, vital data, abortion, demographic methods, 177
copper, lead, iron, zinc, placental transfer, human pregnancy, 213

copper T-380 Ag, anemia, hematocrits, ferritin, levonorgestrel IUD, Lippes loop, 429
cystic tumors, echography, adnexal tumors, 109
cytocidal effects, photoradiation, hematoporphyrin derivative, argon dye laser, gynecologic tumor cells in vitro, 151

deep body temperature, pre-eclampsia, thermal conductivity, vasoconstriction, 361
definitive surgery, recurrent endometriosis, residual ovarian fragments, 93
delayed presentation, carcinoma of the cervix, early marriage and pregnancy, multiple marriages, parity, contraception, 265
demographic methods, maternal mortality, less developed countries, vital data, contraception, abortion, 177
developing countries, diagnostic ultrasound, intrauterine growth retardation, gestational age, gestational weight, maternal anemia, 375
diagnostic ultrasound, developing countries, intrauterine growth retardation, gestational age, gestational weight, maternal anemia, 375
dominant follicle, clomiphene citrate, follicular development, ultrasound follicular measurement, selection phase, maturation phase, FSH-LH-E_2 plasma values, 271

early marriage and pregnancy, carcinoma of the cervix, multiple marriages, parity, contraception, delayed presentation, 265
early neonatal deaths, twins, triplets, conjoined twins, operative deliveries, stillbirths, 41
echography, cystic tumors, adnexal tumors, 109
Egypt, maternal mortality, causes, risk factors, Indonesia, measurement, 21
elderly primigravida in Nigeria, primigravida, pregnancy and labor complications, fetal outcome, best age-group, 51
elective cesarean section, macrosomic fetus, maternal mortality and morbidity, 197
electrocoagulation, female sterilization, laparoscopy, tubal ring, 409
endometrial adenomatus hyperplasia, progesterone challenge test, estrogen assays in menopause, 115
endometrium, biopsy, aspiration, 89
episiotomy, indometacin, pain, analgesia, 57

family planning, abortion deaths in Benin City, Nigeria, preventable factors, need for revision of restrictive abortion laws in Africa, 435
female sterilization, laparoscopy, electrocoagulation, tubal ring, 409
ferritin, anemia, hematocrits, levonorgestrel IUD, copper T-380 Ag, Lippes loop, 429
fetal assessment, fetal heart rate monitoring, cesarean section, intra-operative, myometrial incision, 203
fetal biparietal diameter, head circumference, ultrasound, longitudinal study, 223
fetal blood gases, labor pain, maternal blood gases, analgesics, 75
fetal heart rate monitoring, cesarean section, intra-operative, fetal assessment, myometrial incision, 203
fetal outcome, primigravida, pregnancy and labor complications, best age-group, elderly primigravida in Nigeria, 51
fetus, ultrasound, pancreas, gestational age, 61
fibromatoses, pelvic tumor, pelvic mass, 459
fistula, vesico-uterine fistula, urinary fistula, uterine diseases, 453
follicular development, clomiphene citrate, dominant follicle, ultrasound follicular measurement, selection phase, maturation phase, FSH-LH-E_2 plasma values, 271
FSH-LH-E_2 plasma values, clomiphene citrate, follicular development, dominant follicle, ultrasound follicular measurement, selection phase, maturation phase, 271
fundal height, small-for-gestational age, antenatal screening, growth retardation, measurement, 81

germinal tissue, stress, testes, rats, spermatogenesis, immobilization, 297
gestational age, diagnostic ultrasound, developing countries, intrauterine growth retardation, gestational weight, maternal anemia, 375
gestational age, ultrasound, fetus, pancreas, 61
gestational diabetes, hemoglobin A_{1c}, glucose tolerance test, large baby, puerperium, 5
gestational weight, diagnostic ultrasound, developing countries, intrauterine growth retardation, gestational age, maternal anemia, 375
glucose tolerance test, hemoglobin A_{1c}, large baby, gestational diabetes, puerperium, 5
gonadotrophins, uterine contractility, prostaglandin E_2, human menopausal gonadotrophins, 417
grade of tumor, squamous carcinoma, radical vulvectomy, lymphadenectomy, Cloquet node, stromal invasion, 105
grandmultiparity, maternal and fetal complications, modern specialist obstetric care, 355
gravida, maternal age, parity, birthweight, intrauterine growth retardation, maternal nutrition, 11
growth retardation, small-for-gestational age, antenatal screening, fundal height, measurement, 81
gynecologic tumor cells in vitro, photoradiation, cytocidal effects, hematoporphyrin derivative, argon dye laser, 151

head circumference, fetal biparietal diameter, ultrasound, longitudinal study, 223
hematocrits, anemia, ferritin, levonorgestrel IUD, copper T-380 Ag, Lippes loop, 429
hematological indices, iron status, primigravidae, serial, plasma volume, 33
hematologic response, Imferon, anemia, pregnancy, tolerance, 235
hematoporphyrin derivative, photoradiation, cytocidal effects, argon dye laser, gynecologic tumor cells in vitro, 151
hemoglobinopathies, sickle cell anemia, pregnancy, standard management, complications, improved maternal and fetal prognosis, 229

hemoglobin A_{1c}, glucose tolerance test, large baby, gestational diabetes, puerperium, 5
high risk pregnancy, rupture of the uterus, necrosis of the frontal lower segment, ultrasound monitoring, preterm birth, cesarean section, 279
hormone profile, mesterolone, oligospermia, semen, 121
hospital fees, maternity care monitoring, cesarean section, maternal mortality, perinatal mortality, levels of health care delivery, 367
human menopausal gonadotrophins, uterine contractility, prostaglandin E_2, gonadotrophins, 417
human pregnancy, lead, iron, copper, zinc, placental transfer, 213
hypernephroid tumor, mesonephric, adenocarcinoma, cervix, mesonephric duct, 137

Imferon, anemia, pregnancy, hematologic response, tolerance, 235
immobilization, stress, testes, rats, spermatogenesis, germinal tissue, 297
improved maternal and fetal prognosis, hemoglobinopathies, sickle cell anemia, pregnancy, standard management, complications, 229
indometacin, pain, analgesia, episiotomy, 57
Indonesia, maternal mortality, causes, risk factors, Egypt, measurement, 21
induction of labor, intrauterine fetal death, 15-(*S*)-methylprostaglandin F2, 209
infertility, salpingitis, sexually transmitted diseases, chlamydial serology, 423
intra-operative, fetal heart rate monitoring, cesarean section, fetal assessment, myometrial incision, 203
intrapartum fetal monitoring, perinatal deaths, prematurity, congenital malformations, birth trauma, maternal diseases, 399
intrauterine fetal death, induction of labor, 15-(*S*)-methylprostaglandin F2, 209
intrauterine growth retardation, diagnostic ultrasound, developing countries, gestational age, gestational weight, maternal anemia, 375
intrauterine growth retardation, maternal age, gravida, parity, birthweight, maternal nutrition, 11
invasive cervical carcinoma, staging protocol, 261
iron, lead, copper, zinc, placental transfer, human pregnancy, 213
iron status, primigravidae, serial, hematological indices, plasma volume, 33

labor pain, maternal blood gases, fetal blood gases, analgesics, 75
laminaria tent, second trimester abortion, prostaglandin analogs, 129
laparoscopy, female sterilization, electrocoagulation, tubal ring, 409
large baby, hemoglobin A_{1c}, glucose tolerance test, gestational diabetes, puerperium, 5
lead, iron, copper, zinc, placental transfer, human pregnancy, 213
less developed countries, maternal mortality, vital data, contraception, abortion, demographic methods, 177
levels of health care delivery, maternity care monitoring, cesarean section, maternal mortality, perinatal mortality, hospital fees, 367
levonorgestrel IUD, anemia, hematocrits, ferritin, copper T-380 Ag, Lippes loop, 429
Lippes loop, anemia, hematocrits, ferritin, levonorgestrel IUD, copper T-380 Ag, 429
longitudinal study, fetal biparietal diameter, head circumference, ultrasound, 223
low birthweight, risk factors, prevention, 379
lymphadenectomy, squamous carcinoma, radical vulvectomy, grade of tumor, Cloquet node, stromal invasion, 105

macrosomia, pregnancy, shoulder dystocia, management, birth-related injuries, Zavenelli maneuver, 65
macrosomic fetus, maternal mortality and morbidity, elective cesarean section, 197
malignant change, clinico-pathologic evaluation, ovarian neoplasms, benign cystic teratoma, bilateral, serous and mucinous cyst adenoma, 413
management, pregnancy, shoulder dystocia, birth-related injuries, macrosomia, Zavenelli maneuver, 65
maternal age, gravida, parity, birthweight, intrauterine growth retardation, maternal nutrition, 11
maternal and fetal complications, grandmultiparity, modern specialist obstetric care, 355
maternal and perinatal outcome, twin pregnancy, cesarean section, 393
maternal anemia, diagnostic ultrasound, developing countries, intrauterine growth retardation, gestational age, gestational weight, 375
maternal blood gases, labor pain, fetal blood gases, analgesics, 75
maternal diseases, perinatal deaths, prematurity, congenital malformations, birth trauma, intrapartum fetal monitoring, 399
maternal mortality, causes, risk factors, Indonesia, Egypt, measurement, 21
maternal mortality, less developed countries, vital data, contraception, abortion, demographic methods, 177
maternal mortality, maternity care monitoring, cesarean section, perinatal mortality, levels of health care delivery, hospital fees, 367
maternal mortality, safe motherhood, obstetrical services, Senegal, African maternal care, problem identification, policy initiative, 181
maternal mortality and morbidity, macrosomic fetus, elective cesarean section, 197
maternal nutrition, maternal age, gravida, parity, birthweight, intrauterine growth retardation, 11
maternity care in developing countries, new technological advances, 349
maternity care monitoring, cesarean section, maternal mortality, perinatal mortality, levels of health care delivery, hospital fees, 367

maturation phase, clomiphene citrate, follicular development, dominant follicle, ultrasound follicular measurement, selection phase, FSH-LH-E_2 plasma values, 271
McDonald's technique, cervical incompetence, cervical cerclage, cervical suture, Shirodkar's technique, morbidity of cervical cerclage, 245
measurement, maternal mortality, causes, risk factors, Indonesia, Egypt, 21
measurement, small-for-gestational age, antenatal screening, fundal height, growth retardation, 81
mesonephric, adenocarcinoma, cervix, hypernephroid tumor, mesonephric duct, 137
mesonephric duct, mesonephric, adenocarcinoma, cervix, hypernephroid tumor, 137
mesterolone, oligospermia, semen, hormone profile, 121
15-(*S*)-methylprostaglandin F2, intrauterine fetal death, induction of labor, 209
modern specialist obstetric care, grandmultiparity, maternal and fetal complications, 355
morbidity of cervical cerclage, cervical incompetence, cervical cerclage, cervical suture, McDonald's technique, Shirodkar's technique, 245
multiple marriages, carcinoma of the cervix, early marriage and pregnancy, parity, contraception, delayed presentation, 265
myometrial incision, fetal heart rate monitoring, cesarean section, intra-operative, fetal assessment, 203

necrosis of the frontal lower segment, rupture of the uterus, ultrasound monitoring, preterm birth, high risk pregnancy, cesarean section, 279
need for revision of restrictive abortion laws in Africa, abortion deaths in Benin City, Nigeria, preventable factors, family planning, 435
new technological advances, maternity care in developing countries, 349

obstetrical services, maternal mortality, safe motherhood, Senegal, African maternal care, problem identification, policy initiative, 181
oestrogen assays in menopause, endometrial adenomatus hyperplasia, progesterone challenge test, 115
Ogilvie's syndrome, paralytic ileus, post-operative care, post-cesarean section complications, post-delivery complications, puerperium, 285
oligospermia, mesterolone, semen, hormone profile, 121
operative deliveries, twins, triplets, conjoined twins, stillbirths, early neonatal deaths, 41
ovarian neoplasms, clinico-pathologic evaluation, benign cystic teratoma, bilateral, serous and mucinous cyst adenoma, malignant change, 413
ovarian sex-cord tumor with annular tubules, Peutz-Jeghers syndrome, 441

pain, indometacin, analgesia, episiotomy, 57
pancreas, ultrasound, fetus, gestational age, 61
paralytic ileus, post-operative care, Ogilvie's syndrome, post-cesarean section complications, post-delivery complications, puerperium, 285
parity, carcinoma of the cervix, early marriage and pregnancy, multiple marriages, contraception, delayed presentation, 265
parity, maternal age, gravida, birthweight, intrauterine growth retardation, maternal nutrition, 11
pelvic mass, fibromatoses, pelvic tumor, 459
pelvic tumor, fibromatoses, pelvic mass, 459
perinatal deaths, prematurity, congenital malformations, birth trauma, maternal diseases, intrapartum fetal monitoring, 399
perinatal mortality, maternity care monitoring, cesarean section, maternal mortality, levels of health care delivery, hospital fees, 367
Peutz-Jeghers syndrome, ovarian sex-cord tumor with annular tubules, 441
photoradiation, cytocidal effects, hematoporphyrin derivative, argon dye laser, gynecologic tumor cells in vitro, 151
placental transfer, lead, iron, copper, zinc, human pregnancy, 213
plasma volume, iron status, primigravidae, serial, hematological indices, 33
policy initiative, maternal mortality, safe motherhood, obstetrical services, Senegal, African maternal care, problem identification, 181
post-cesarean section complications, paralytic ileus, post-operative care, Ogilvie's syndrome, post-delivery complications, puerperium, 285
post-delivery complications, paralytic ileus, post-operative care, Ogilvie's syndrome, post-cesarean section complicatoins, puerperium, 285
post-operative care, paralytic ileus, Ogilvie's syndrome, post-cesarean section complications, post-delivery complications, puerperium, 285
pre-eclampsia, complement, pregnancy, undernutrition, 389
pre-eclampsia, thermal conductivity, deep body temperature, vasoconstriction, 361
pregnancy, acute glomerulonephritis, renal biopsy, antistreptolysin O, 141
pregnancy, complement, pre-eclampsia, undernutrition, 389
pregnancy, hemoglobinopathies, sickle cell anemia, standard management, complications, improved maternal and fetal prognosis, 229
pregnancy, Imferon, anemia, hematologic response, tolerance, 235
pregnancy, premature ovarian failure, 291
pregnancy, primary pulmonary hypertension, 145
pregnancy, shoulder dystocia, management, birth-related injuries, macrosomia, Zavenelli maneuver, 65
pregnancy and labor complications, primigravida, fetal outcome, best age-group, elderly primigravida in Nigeria, 51
premature ovarian failure, pregnancy, 291
prematurity, perinatal deaths, congenital malformations, birth

trauma, maternal diseases, intrapartum fetal monitoring, 399
preterm birth, rupture of the uterus, necrosis of the frontal lower segment, ultrasound monitoring, high risk pregnancy, cesarean section, 279
prevalence, total hysterectomy, supravaginal hysterectomy, sterilization, urinary incontinence, 255
preventable factors, abortion deaths in Benin City, Nigeria, family planning, need for revision of restrictive abortion laws in Africa, 435
prevention, low birthweight, risk factors, 379
previous cesarean section, vaginal birth, 189
primary pulmonary hypertension, pregnancy, 145
primigravida, pregnancy and labor complications, fetal outcome, best age-group, elderly primigravida in Nigeria, 51
primigravidae, iron status, serial, hematological indices, plasma volume, 33
problem identification, maternal mortality, safe motherhood, obstetrical services, Senegal, African maternal care, policy initiative, 181
progesterone challenge test, endometrial adenomatus hyperplasia, estrogen assays in menopause, 115
prostaglandin analogs, second trimester abortion, laminaria tent, 129
prostaglandin E_2, uterine contractility, human menopausal gonadotrophins, gonadotrophins, 417
puerperium, hemoglobin A_{1c}, glucose tolerance test, large baby, gestational diabetes, 5
puerperium, paralytic ileus, post-operative care, Ogilvie's syndrome, post-cesarean section complications, post-delivery complications, 285

radical vulvectomy, squamous carcinoma, lymphadenectomy, grade of tumor, Cloquet node, stromal invasion, 105
rats, stress, testes, spermatogenesis, germinal tissue, immobilization, 297
recurrent endometriosis, definitive surgery, residual ovarian fragments, 93
renal biopsy, acute glomerulonephritis, pregnancy, antistreptolysin O, 141
residual ovarian fragments, recurrent endometriosis, definitive surgery, 93
risk factors, low birthweight, prevention, 379
risk factors, maternal mortality, causes, Indonesia, Egypt, measurement, 21
rupture of the uterus, necrosis of the frontal lower segment, ultrasound monitoring, preterm birth, high risk pregnancy, cesarean section, 279

safe motherhood, maternal mortality, obstetrical services, Senegal, African maternal care, problem identification, policy initiative, 181
salpingitis, infertility, sexually transmitted diseases, chlamydial serology, 423
second trimester abortion, prostaglandin analogs, laminaria tent, 129
selection phase, clomiphene citrate, follicular development, dominant follicle, ultrasound follicular measurement, maturation phase, FSH-LH-E_2 plasma values, 271
semen, mesterolone, oligospermia, hormone profile, 121
Senegal, maternal mortality, safe motherhood, obstetrical services, African maternal care, problem identification, policy initiative, 181
serial, iron status, primigravidae, hematological indices, plasma volume, 33
serous and mucinous cyst adenoma, clinico-pathologic evaluation, ovarian neoplasms, benign cystic teratoma, bilateral, malignant change, 413
sexually transmitted diseases, infertility, salpingitis, chlamydial serology, 423
Shirodkar's technique, cervical incompetence, cervical cerclage, cervical suture, McDonald's technique, morbidity of cervical cerclage, 245
shoulder dystocia, pregnancy, management, birth-related injuries, macrosomia, Zavenelli maneuver, 65
sickle cell anemia, hemoglobinopathies, pregnancy, standard management, complications, improved maternal and fetal prognosis, 229
small-for-gestational age, antenatal screening, fundal height, growth retardation, measurement, 81
spermatogenesis, stress, testes, rats, germinal tissue, immobilization, 297
squamous carcinoma, radical vulvectomy, lymphadenectomy, grade of tumor, Cloquet node, stromal invasion, 105
staging protocol, invasive cervical carcinoma, 261
standard management, hemoglobinopathies, sickle cell anemia, pregnancy, complications, improved maternal and fetal prognosis, 229
sterilization, total hysterectomy, supravaginal hysterectomy, urinary incontinence, prevalence, 255
stillbirths, twins, triplets, conjoined twins, operative deliveries, early neonatal deaths, 41
stress, testes, rats, spermatogenesis, germinal tissue, immobilization, 297
stromal invasion, squamous carcinoma, radical vulvectomy, lymphadenectomy, grade of tumor, Cloquet node, 105
supravaginal hysterectomy, total hysterectomy, sterilization, urinary incontinence, prevalence, 255

testes, stress, rats, spermatogenesis, germinal tissue, immobilization, 297
thermal conductivity, pre-eclampsia, deep body temperature, vasoconstriction, 361
tolerance, Imferon, anemia, pregnancy, hematologic response, 235
total hysterectomy, supravaginal hysterectomy, sterilization, urinary incontinence, prevalence, 255
triplets, twins, conjoined twins, operative deliveries, stillbirths, early neonatal deaths, 41
tubal ring, female sterilization, laparoscopy, electrocoagulation, 409
twins, triplets, conjoined twins, operative deliveries, stillbirths, early neonatal deaths, 41

twin pregnancy, cesarean section, maternal and perinatal outcome, 393

ultrasound, fetal biparietal diameter, head circumference, longitudinal study, 223
ultrasound, fetus, pancreas, gestational age, 61
ultrasound follicular measurement, clomiphene citrate, follicular development, dominant follicle, selection phase, maturation phase, FSH-LH-E_2 plasma values, 271
ultrasound monitoring, rupture of the uterus, necrosis of the frontal lower segment, preterm birth, high risk pregnancy, cesarean section, 279
undernutrition, complement, pregnancy, pre-eclampsia, 389
urinary fistula, fistula, vesico-uterine fistula, uterine diseases, 453
urinary incontinence, total hysterectomy, supravaginal hysterectomy, sterilization, prevalence, 255
uterine contractility, prostaglandin E_2, human menopausal gonadotrophins, gonadotrophins, 417
uterine diseases, fistula, vesico-uterine fistula, urinary fistula, 453

vaginal birth, previous cesarean section, 189
vasoconstriction, pre-eclampsia, thermal conductivity, deep body temperature, 361
vesico-uterine fistula, fistula, urinary fistula, uterine diseases, 453
vital data, maternal mortality, less developed countries, contraception, abortion, demographic methods, 177

Zavenelli maneuver, pregnancy, shoulder dystocia, management, birth-related injuries, macrosomia, 65
zinc, lead, iron, copper, placental transfer, human pregnancy, 213
